sustainability of our region*

Free Workshops on BBRF

Seeking opportunities to sustain and grow your business? Seeking ways to make stronger applications for the Building Better Regions Fund?

RDA invites you to attend free workshops on the Australian Government's Building Better Regions Fund (BBRF).

Not-for-profit organisations and councils can benefit from information provided by RDA on the guidelines and making strong applications.

RDA is also sponsoring a special workshop focusing on addressing the economic and social benefits criteria. This will be presented by Matthew Kelly, Economist, at the AEC Group.

The Building Better Regions Fund program includes two streams - Infrastructure Projects and Community Investment, both closing on 19 December, 2017.

Free tickets can be booked online through Eventbrite, using the links below.

When registering, please select whether you will be attending the workshop or dialing in through video conference.
